Subject: RE: PM/Clinimetrics/P.A. 8

Loreen,

Below is the one voice response from Finance and Purchasing concerning this contract proposal.

- Do we need to change the effective date in first paragraph?
- Article 2 refers to an "Hourly Rate Fee based upon each hour" while the table below quotes the CRA at a per diem rate. Do we need to change wording?
- Contractor Project Assistant position is new, not in the master. Do we need to amend the master for this rate?

Attachment A

- 2 A. - 3rd bullet - misspell of the word *timeliness*.
- 3 C. (5) - Other Activities - we mention the need to submit reports to "Data Management". Should we define who that is?
- Screen Failure Visits are an addition to the work requested under PA 5, the 4 month study. Would like to ensure that these visits are were in our plan, not added on without our knowledge.
- The quote is for Screen Failure Visits only at the NJ facility. Do we need them in Nebraska as well? No

Attachment B

- Site Monitoring - This quote includes >\$5,000 for travel time. PM, as a general rule, doesn't pay our vendors for the time incurred travelling.

We're open to a discussion in regards to your questions below surrounding review of project agreements for Clinimetrics.

Mary and Gwen

CLN 8
Waiting on final approval 4/23

Subject: FW: PM/Clinimetrics/P.A. 8
Importance: High

Dear Gwen and Mary,

Here is the draft Agreement for your review...A&P will be providing and update sometime today. Since this is like the others with the rates included as agreed to in the Master, I just wanted to pass by you for approval. This may be an item for discussion if the rates are included and are consistent with the master, is this something that still needs your review?

Thanks,
-L

Loreen and Amy:
Attached please find my comments on Clinimetrics PA 8. Let me know if any questions.

Thanks,
Valerie

Val,

In the interest of time, could you please answer Amy's questions and cc: me on your response? Thanks,
-L

Loreen:

For your comments. There are some questions in the draft that we can discuss. I am not certain if you want to send this out to purchasing and finance given the time constraints, but I am fine with it if you want to.

Thanks.
